Sculpt and paint intricate detail

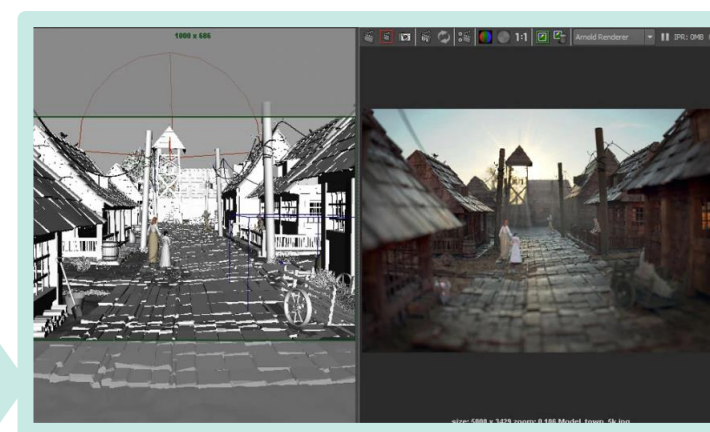

SEE HOW PEOPLE ARE USING THE COLLECTION

Create procedural simulations with Bifrost [Watch Video](#)

Each M & E Collection subscription includes 15 entitlements to the Bifrost engine, so studios can run Bifrost-created simulations on a compute farm.

Arnold is an advanced Monte Carlo ray-tracing renderer used in demanding VFX and animation productions worldwide.

Use the 5 Arnold licenses with the M & E Collection [Watch Video](#)

WHY A COLLECTION?

Take on any creative project

Get a comprehensive set of content creation tools and services that expand the workflows of Maya and 3ds Max. The collection provides an end-to-end creative solution for animators, modelers, and visual effects artists in film, TV, games, and design visualization.

Access the latest and previous releases

Ensure software compatibility with all team members by accessing previous versions when you need them. Stay current with the latest releases. Deploy updates whenever you want.

Easier software and license management

Eliminate the headache of managing multiple product licenses. Get insights on product use. Easily download, install, and use as many products within the collection as you want, whenever you like.

Choose access for individuals or teams

Choose a single-user subscription or give teams permission to share licenses with multi-user access.
